PROFILE

Dedicated M1 Cyber Security student with a strong academic foundation in Information Systems (ranked Top 10). I combine theoretical knowledge with practical expertise in Full Stack development (Next.js, Spring Boot) and backend architecture. Proven experience in leading digitalization projects for university institutions, ranging from exam management platforms to SaaS attendance solutions.

EDUCATION

Higher Institute of Sciences (HIS) University 2025 – 2026

Master 1 (M1) in Cyber Security

- **Merit Scholarship:** Awarded a competitive 2-year full scholarship for the Master's program after passing a selective entrance exam and interview.

University of Biskra 2022 – 2025

Licence in Computer Science (Specialty: Information Systems)

- **Ranking:** Top 10 student in the university cohort.
- **Performance:** General Average +13/20.

PROFESSIONAL EXPERIENCE

Full Stack Developer & Project Lead 2025 – Present

Higher Institute of Sciences (HIS) University

- **Information System Modules:** Lead developer creating custom modules to enhance the university's internal IS.
- **Bank of Exams Platform:** Designed and implemented a solution allowing students to access and review past exam papers for revision.
- **Attendance System (SaaS):** Developed a digital attendance tracking system. Replaced paper workflows with a web interface for professors and an automated reporting dashboard for administration.

Backend Developer 2024 – 2025

LINFI Lab, University of Biskra (Project DIGIQA)

- Worked under the supervision of Prof. Laid Kahloul on the **DIGIQA** (Digital Quality Assurance) platform.
- Developed and tested core back-end functionalities to ensure system reliability and performance while meeting institutional quality standards.

PROJECTS

Attendance System (SaaS) | Full Stack Development

A SaaS solution replacing paper attendance. Features a web interface for professors to mark presence and an admin dashboard for automated reporting and analytics.

Bank of Exams | Full Stack Development

An academic resource platform allowing students to search, filter, and review past exam papers, significantly enhancing revision accessibility.

DIGIQA | Backend Development

A quality assurance software for the University of Biskra. Focused on robust API development and ensuring data integrity for institutional processes.

Ophtalmo | Web Application

A patient management platform for ophthalmologists, featuring doctor portfolios, operation logs, and surgery appointment scheduling.

Browebs | E-Commerce Service

A web portal allowing clients to browse development packages and commission custom websites.

Preschool Enrollment | Web Application

A digital registration platform simplifying the enrollment process for parents and preschool administrators.

TECHNICAL SKILLS

- **Languages:** Java, C, C++, Python, JavaScript.
- **Web & Frameworks:** Next.js, Spring Boot, HTML5, CSS3, REST APIs.
- **Data & Databases:** MySQL, Oracle.
- **Tools & Concepts:** Git/GitHub, Linux, OOP, Functional Programming.
- **Languages:** Arabic, French, English.
